FIRE SAFETY: KEEPING OUR WORKPLACE PREPARED

By Hadhiya

In line with our commitment to ensuring the safety and well-being of all employees, Mitatronics recently hosted a comprehensive Fire and Safety Awareness Training. This session aimed to enhance our team's understanding of fire safety protocols and emergency preparedness. During the training, employees were introduced to the different types of fire extinguishers and how to use them effectively in the event of a fire emergency.

The session was conducted by our HSSE (Health, Safety, Security, and Environment) team, experts who provided critical insights on fire prevention and emergency response strategies. The training included essential fire safety tips and best practices, and employees were encouraged to ask questions and engage in discussions to deepen their understanding. To further reinforce the training, we conducted a mock fire drill to evaluate how well our team members would respond in a real emergency situation.

Fire Safety: Keeping our workplace prepared

Respecting our Housekeeping Heros

Stars of the month: September

Empowering Health: Mitatronic's Medical Camp

Mitatronics
Empowering Learning, Growing Tomorrow

The drill was an invaluable opportunity to test our collective readiness and identify areas for improvement. Based on the outcomes of the drill, we have developed a corrective action plan to address any gaps and improve our procedures. We are committed to ensuring that every employee feels confident and prepared should an emergency arise. More fire drills and safety training sessions are planned to maintain and strengthen our emergency response protocols.

RESPECTING OUR HOUSEKEEPING HEROES

By Hadhiya

We held an interactive and insightful session on Housekeeping and Work Hour Maintenance, led by our senior employee, Mrs. Sunanda. The session was designed to be both educational and open, providing a platform for employees to voice their suggestions and concerns regarding housekeeping practices. The session emphasized the importance of respecting our housekeeping staff, recognizing their vital contribution to maintaining a clean and organized workplace.

Star of the Month: Recognizing Outstanding Contributions

We are thrilled to announce our Stars of the Month—a group of outstanding employees who have gone above and beyond in their roles this month. Their dedication, hard work, and exceptional contributions have made a significant impact on our team at Mitatronics.

EMPOWERING HEALTH: MITATRONIC'S MEDICAL CAMP

By Hadhiya

As part of our commitment to employee health and well-being, Mitatronics recently organized a Health Camp for all staff members. The camp provided free health check-ups, including blood pressure monitoring, general health assessments, and wellness consultations, offering employees a chance to proactively manage their health.

This initiative was a great success, with many employees taking advantage of the opportunity to focus on their well-being. We encourage everyone to keep prioritizing their health, as it is key to both personal and professional success.
