Best Department Award 🏆

Written By: Hadhiya

Congratulations to the Insertion Line team for winning the Best Department Award! Their achievement is based on having the best yield time, calculated by how efficiently they minimize waste. Our workweek consists of 9 hours per day with a 25-minute break and a 30-minute lunch. Despite the tight schedule, the Insertion Line team displayed exceptional cooperation during the 5S cleanup, further demonstrating their commitment to excellence.

Introduction to Quality Manager - Priya K. 📊👤

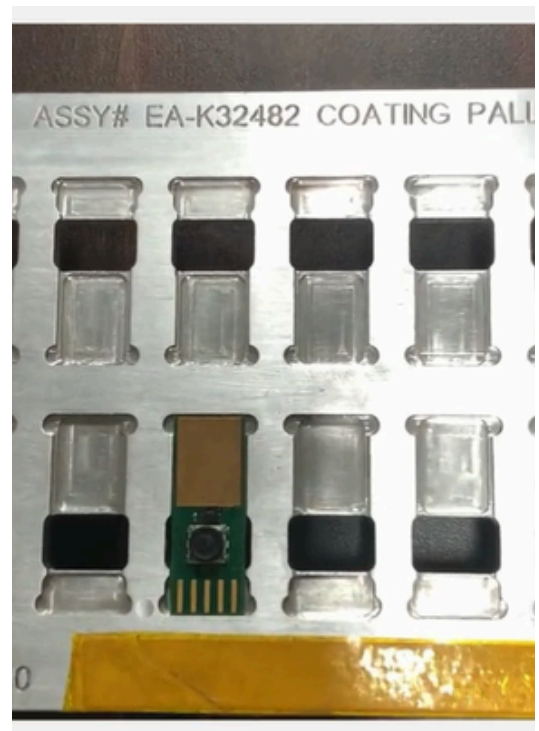

Written by Hadhiya

Mrs. Priya has 8 years of experience in Quality across the automobile, PCBA assembly, and EV battery industries. She specializes in product reliability, process optimization, and quality assurance. Mrs. Priya excels in process audits, root cause analysis, CAPA, and supplier quality management. Passionate about continuous improvement, she looks forward to driving quality management and innovation here.

New Jig for Conformal Coating Process 🛠️

Written by Hadhiya

We're excited to announce a breakthrough in our conformal coating process with the introduction of a new jig. This innovative jig allows us to coat up to 10 PCBs at a time without the need for masking. The process is simple: place the PCBs in the jig, spray the coat, close the jig, and in just 10-15 minutes, the coating is done. This not only saves time but also enhances the quality and consistency of our coatings.

- TBD: How AI Can Enhance Our Daily Tasks, by Dr. Sen Gupta

Introducing Our Department Leaders

Written by Hadhiya

We're excited to introduce our dedicated department leaders who play a vital role in enhancing productivity and efficiency. These leaders have been chosen for their expertise and ability to inspire their teams.

- Nilam Nimbalkar [PTH-QC]: Expert in quality control, ensuring team efficiency.
- Indrajit Kewat [PTH-Cleaning]: Maintains high cleanliness standards and work efficiency.
- Prafulla Thumbare [PTH-Packing]: Oversees secure and efficient packing processes.
- Dhanasri Kambale [PTH-Touch Up]: Leads meticulous touch-ups, enhancing product quality.
- Shobha Bhandare [PTH-Soldering]: Manages soldering techniques, improving workflow.
- Sonali Mandive [PTH-Insertion line]: Optimizes insertion line, reducing waste.
- Sujata Kank [PTH-Soldering]: Focuses on quality connections and team productivity.
- Rajendra Sahoo [PTH-Fitting]: Ensures precision in fitting processes.
- Shruti Ghosh [PTH-Cutting]: Supervises cutting processes with precision.

Their leadership drives our commitment to excellence. Let's support them in their journey to greater heights.
